Mill Finish
Aluminum
24g, 26g & 28g

LIFETIME METAL SHINGLES

Overall Length: 1320mm
Length of cover: 1260mm
Width of cover: 370mm
Upstand: 25mm

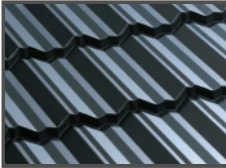

We offer both Stone Coated & Acrylic

- 50 Year Limited Warranty
- Wind resistance warranted up to 200km/hr
- Stone Coated & Satin Finishes
- 26 gauge aluminum-zinc alloy coated steel
- Easy Installation

DECRA Shingle

DECRA Classic

DECRA Heritage

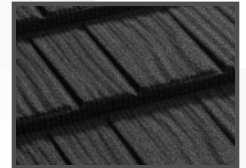

DECRA Milano

DECRA Villa

DECRA Shake

Overall Length: 1335mm
Length of Cover: 1250mm
Width of Cover: 400mm
Upstand: 20mm

- Alu-Zinc Steel
- Fire Resistant (Tested to FNE10511)
- Genuine Stone Coating
- Colour that will not change
- Fast installation

BROWN

CLAY

DARK GREY

LIFETIME WATERPROOFING

Modified Bitumen Membrane

Torch-on membranes have an underside which has been pre-treated with a covering of thermo fusible bitumen.

Liquid Applied Polyurethane Waterproofing

Single component polyurethane resin is used for durable waterproofing of high traffic outdoor surfaces and upstands without additional surface protection.

ALSAN RS System

The ALSAN RS System offers a complete range of products utilizing PMMA (polymethyl methacrylate) technology. It is an ultra-high performance, flexible, seamless, polyester reinforced cold liquid-applied roofing and waterproofing membrane system.

EPDM & TPO

EPDM (Ethylene Propylene Diene Monomer) and TPO (Thermoplastic polyolefin) are both single ply membrane that deliver superior longterm weather-ability and exhibit exceptional wind uplift resistance.

Insulated Lightweight-Concrete

Insulated lightweight concrete is typically a mixture of cement, water and preformed foam case applied over galvanized steel decking, precast or cast-in-place concrete, and wood.

Hot Mopped Roofs

Composed of several layers of bitumen surfaces, and finished up with an aggregate layer or coating.

Poly-Granulate
White 4.5mm
32.8ft x 3.28ft (107.5 SF)

Polyline Base
3mm
32.8ft x 3.28ft (107.5 SF)

Englert
HT Underlayment
67ft x 3ft (200 SF)

Aluminum 4ft x 131ft (524 SF)

Double Sided with Aluminum
4ft x 62ft (250 SF)

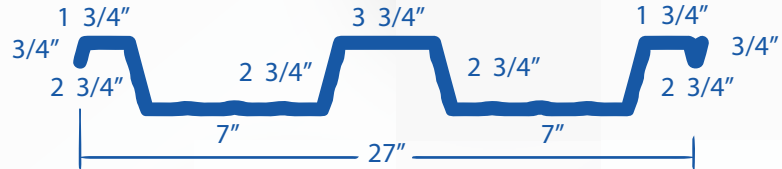

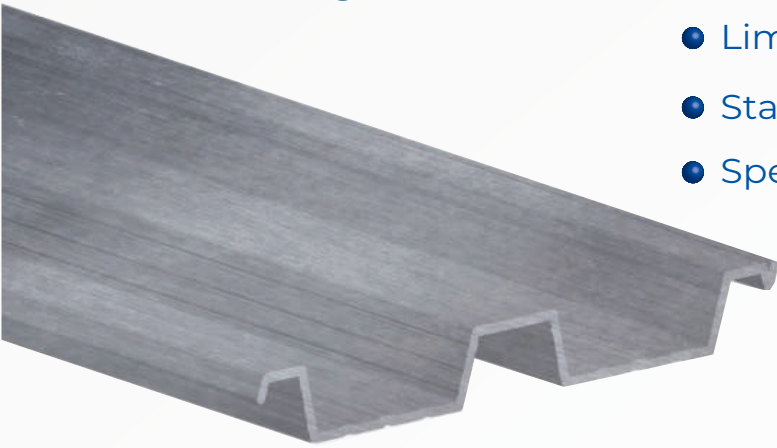

Aluminum & Vinyl
6ft x 62ft (375 SF)

LIFETIME DECKING

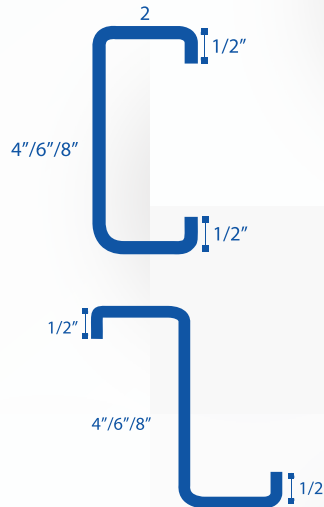

- 0.96mm x 27"
- Custom Lengths Available

- Materials conform to ASTM A653 CS Type B with yield strength of 30-50 ksi / Grade 30-50.
- Limited deflection to L/180.
- Standard length is 6M or 19.68 LF
- Specifications subject to change without notice

LIFETIME PURLINS

- Z & C PURLINS
- 1.5mm Gauge (Standard)
 - 2" x 4"
 - 2" x 6"
 - 2" x 8"
- Custom Lengths Available

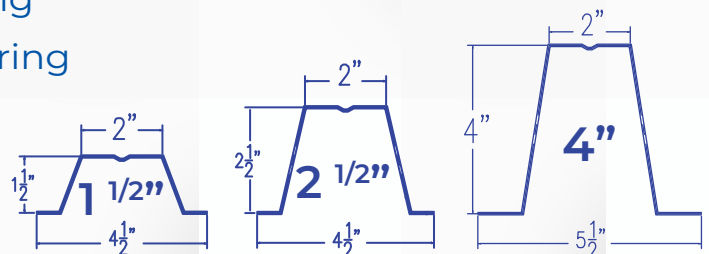

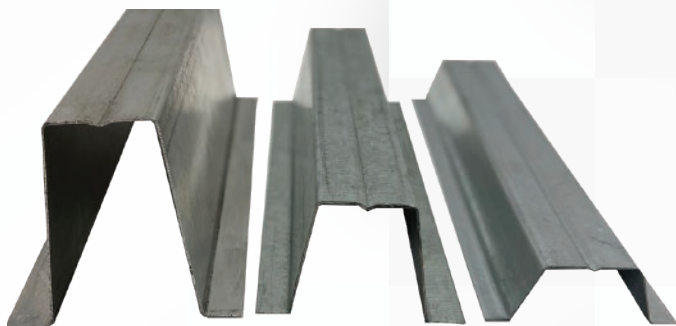

LIFETIME HAT CHANNELS

1 1/2" / 2 1/2" / 4" H Channels

- 1.5mm x 1 1/2" in
- 1.5mm x 2 1/2" in
- 1.5mm x 4 in

Uses

- Masonry Wall
- Ceilings
- Roofing
- Siding
- Flooring

All channels are manufactured in 10ft lengths

LIFETIME ALUMINUM GUTTERING

- 24 gauge steel
- 032 Aluminum K-style
- Down pipe 3" x 4"
- Copper 16 oz
- Custom fabrication

Metallic
Copper

White

Charcoal
Grey

Royal
Brown

LIFETIME WINDOWS & DOORS

Glass: 3 or 5 mm float glass and 6 or 10 mm security laminate glass

- Frames:UPVC, Aluminum, Wood laminate finishes
- Glass:Tint, Security Laminate, Impact, Tempered, Insulated, Low-E, Neat Glass
- Window Styles: Casement, Awning, Sash, Sliding, Architectural shapes
- French Style Grills, Custom grills, Built in burglar proofing, Mosquito Mesh
- Door Styles: Patio sliding, Swing, bi-folding and pocket doors
- Standard Sizes and Custom Sizes

Projects we Specialize In

Residential

Factory shell

Commercial

LIFETIME COPPER WORK

- Customized copper work
- Domes
- Steeples
- Guttering
- Roofing

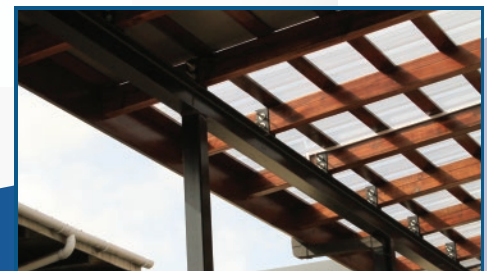

We use
16oz Copper

LIFETIME SKYLIGHTS

- Polycarbonate R-Panel
- Insulated Translucent Glass Skylights
- Controlled daylighting
- Glass Skylights

Skylights

LIFETIME SERVICES

- Custom Fabrication
- Full service installation, repairs & consultancy
- On site roll forming
- General contracting services
- Warranty support
- Skilled supervision & project management
- OSHA & STOW Compliant
- NRCA Certified

MANUFACTURER OF METAL ROOFING PANELS AND RELATED PRODUCTS, FRAMING, GUTTERING.

Lifetime Solutions is a full service speciality manufacturer and contractor of roofing and waterproofing products designed to offer weatherproofing solutions to the exterior envelope of both commercial and residential buildings
